For graphic production please consider these tips:

*   Use RGB color space
*   Make sure TIFF images are as close to 150 dpi at final size as possible
*   Specify pantones as "Pantone Coated" colors
*   Include fonts or make sure to out-line all fonts in the file
*   Provide linked files when applicaple (when providing native files)
*   Remember we have less color con-troll on PDF's, flattened TIFF files and JPEGs
